ABOUT ME

Born in January 1996 in Togo, I am a trained botanist and economist. I am self-taught and possess a strong passion for technology, particularly in IT, with over 8 years of experience. In the past 3 years, I have had the opportunity to lead several ambitious projects in various leadership roles.

EXPERIENCE

Yas Togo, Lomé (Togo)— *Consultant*

July 2025 - Present

Yas Togo is a telecommunications operator in Togo, previously known as Togocom. It offers a range of mobile and internet services.I'm working on the company's automobile park management.

- Project planning and modeling
- Provided technical expertise in project development and design
- Coordinated testing and validation, ensuring compliance with industry standards

Wiicode, Dakar (Senegal) —DevOps & *Backend Lead*

November 2024 - Present

I lead a backend team at a startup focused on building innovative solutions working on remote. I organize the backend work and manage all system configurations and deployments.

BKG Speed, Lomé (Togo) — *Technical Lead*

March 2024 - November 2024

BKG Speed is a platform offering ride-hailing, food delivery, and online shopping services in Togo and Senegal. It provides services like transportation, food delivery (BKG Food), and supermarket shopping.

- Migrated real-time system, achieving a 15% increase in operational efficiency
- Manage a team of more than 12 tech engineer
- Improved payment distribution system
- Deployed the Application in Senegal
